

Swd Rheinol Bremsflüssigkeit

DOT 4

High Performance Brake Fluid

Description

Swd Rheinol Bremsflüssigkeit DOT 4 is a high performance brake fluid, which is designed to meet the requirements of modern motor car brake systems with disc- and drum brakes. Brake fluid DOT 4 exceeds DOT 3 (US Federal Standard 116).

Properties

- Wet boiling point $> 165^{\circ}\text{C}$
- Boiling point $> 265^{\circ}\text{C}$

Benefits

- More safety by reduced boiling point drop
- For all hydraulic brake systems
- Miscible with brake fluids of equal specification

Application

Swd Rheinol Bremsflüssigkeit DOT 4 is suitable for motor car brake systems DOT 3 / DOT 4. The product is completely compatible with comparably brake fluids. In order to achieve full performance it is recommended to use only **Swd Rheinol Bremsflüssigkeit DOT 4** for re-filling.

Specification

FMVSS 116
SAE J 1703 / J 1704
ISO 4925 Class 4

Special hints

Swd Rheinol Bremsflüssigkeit DOT 4 to be stored only originally sealed. Straight after use the brake fluid container has to be sealed airtight again.

Necessarily follow the service instructions for re-filling.

For re-filling hydraulic brake systems absolute cleanliness is required.

The fluid may be harmful for vehicle paintwork.

Disposal

Brake fluids have to be separately collected and disposed. They must not be mixed-up with waste oil.

Specification variations in these characteristics may occur.
The instructions of manufacturer must be regarded.
Further informations to be available by MSDS.
